

In application of the directive 89/686/EEG of 21 December 1989 concerning the harmonisation of the Member States legislation relative to personal protective equipment, Centexbel Notified body 0493 authorised by decree AV/OA235/ST dated 94-05-25 of the Ministry of Employment and Labour has issued

to: **Sioen nv**  
**Fabriekstraat 23**  
**8850 Ardooie**  
**Belgium**

## CE TYPE EXAMINATION CERTIFICATE

**Nr. 03213693**

This CE Type examination certificate is valid until 23/09/2018

for: **Jackets EA2/CHLST/FA1B2C2E3F2W33/WE2A1/FR3/AS/WR33**

The personal protective equipment above mentioned satisfies the applicable essential safety requirements of the Directive 89/686/EEG.

For the argumentation, the following standards are used:

- EN 340:2003: Protective clothing - general requirements
- EN 343:2003 +A1:2007: Protection against foul weather (see annex)
- EN 1149-5:2008: Protective clothing - electrostatic properties - requirements (see annex)
- EN ISO 11611:2007: Protective clothing for use in welding and allied processes (see annex)
- EN ISO 14116:2008: Protective clothing - protection against heat and flame - limited flame spread materials, material assemblies and clothing (see annex)
- IEC 61482-2:2009: Live Working - Protective Clothing against the thermal hazards of an electric arc Part 2 : Requirements (see annex)
- EN ISO 11612:2008: Protective clothing - clothing to protect against heat and flame (see annex)
- EN 13034:2005+A1:2009 Type [PB6]: Protective equipment for protection against chemicals Type PB[6] (see annex)

This is PPE of category III, subject to regular checks in accordance with article 11 of the European PPE directive. In agreement with the manufacturer's choice audits shall be carried out to assess the quality control system (art.11B). The manufacturer must be able, on request, to present the audit report. A first audit shall be performed at the latest on 31.12. 2014 and at least be repeated with intervals of one year.

This declaration applies to the equipment as submitted in the type testing and described in the manufacturer's technical file that is registered with number 6038

Issued by Centexbel, Notified Body 0493<sup>(\*)</sup>, in Ghent, on

## Annex to certificate 03213693

Jackets EA2/CHLST/FA1B2C2E3F2W33/WE2A1/FR3/AS/WR33 complies with the most recent understanding as written in EN 1149-5:2008

These requirements are as follows:

- The electrostatic dissipative clothing shall cover permanently all non complying materials during normal use.
- If the electrostatic dissipative protective clothing comprises multiple layers, the outermost material shall meet the material requirements.
- Thin, non-dissipative attachments such as labels, reflective stripes, etc., are permitted provided they are permanently attached so as to avoid significant separation between the attachment and the electrostatic dissipative clothing.
- Conductive parts (zippers, buttons ...) are permitted provided that they are properly covered by the outermost material when the clothing is worn in flammable or explosive atmospheres.

On homogenous materials the test is carried out according to EN 1149-1:2006.

On non-homogenous materials the test is carried out according to EN 1149-3:2004.
