3XL	2.51.316.08	8718249016097	8718249016103

WASHING INSTRUCTIONS

Max. 5x

CLARIFICATION OF PICTOGRAMS

EN ISO 20471:2013+A1:2016 High-visibility warning clothing

The EN ISO 20471:2013 standard specifies requirements for clothing intended to visually emphasise the user's presence in order to make him or her more visible in dangerous situations, both during the day and at night.

EN ISO 20471:2013+A1:2016

X = class for the fluorescent, reflective surface, from 1 to 3 (see label for correct class)

	Class 1	Class 2	Class 3
Fluorescent material	0,14 m ²	0,50 m ²	0,80 m ²
Reflective material (mandatory length for 50 mm wide strips)	0,10 m ² (2 m)	0,13 m ² (2,6 m)	0,20 m ² (4m)

The number next to the pictogram indicates the class of the article. This depends on the minimum surface area of fluorescent and reflective material. **Note! The reflective surface of class 1 clothing may not be provided with a print.**

STORAGE REQUIREMENTS

The clothing should be stored in a clean, cool and dry place and not kept compressed in the original packaging. Do not expose the clothing to direct sunlight. Never store the clothing wet; always allow it to dry hanging first. Make sure that the packaging and the clothing are not damaged when shipped.

TESTING INSTITUTE

This garment is certified by: AITEX (Notified Body no. 0161), Plaza Emilio Sala, 1 Alcoy (Alicante) 965542200, Spain.
