Certificate GB07/73439, continued

Microgard Ltd.

EC Directive 89/686/EEC EC Type-examination

Issue 7.

EN ISO 13982-1:2004 + A1:2010 (Type 5: Limited life, full body protection against airborne solid particulates);

EN 13034:2005 + A1:2009 (Type 6: Limited life, full body chemical protective clothing offering limited protection against liquid chemicals);

EN 1149-5:2008 (Protective clothing - Electrostatic properties) for electrostatic dissipative protective clothing with a charge decay, half decay time, $t_{50} < 4$ s.

In addition with one exception the PPE satisfied the requirements of

EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) with a performance classification of TIL Class 1.

The exception is that clause 4.2 specifies that the minimum puncture resistance should be level 2, but the fabric used has a puncture resistance classification of level 1 (as required for the other standards listed above).

The manufacturer's information notices [MICROGARD® 2000 Comfort, version 26.10.12 & MICROGARD® 2000 Light Blue Bag, Version 08.3.12], in English, have been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file: Comfort, issue 12
