Microgard Ltd.

EC Directive 89/686/EEC

EC Type-examination

Issue 8.

EN 14605:2005 + A1:2009 (Type 4 limited life, full body chemical protective clothing with spray tight connections);
EN ISO 13982-1:2004 + A1:2010 (Type 5 Limited life, full body chemical protective clothing against solid particulates);
EN 13034:2005 + A1:2009 (Type 6 Limited life, full body limited chemical protective clothing against liquids);
EN 14126:2003 (Type 4-B, 5-B, 6-B Limited life, full body protective clothing against infective agents).
Additionally with one exception the PPE satisfied the requirements for EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) for a performance classification of TIL Class 2. The exception is that clause 4.2 requires the minimum puncture resistance to be level 2, but the fabric used has a puncture resistance of level 1.
Plus DIN 32781:2010 (Protective suits against pesticides) with a water vapour resistance classification of Class 3.
In addition the fabric met the requirements of EN 1149-5:2008 (Protective clothing - Electrostatic properties) for electrostatic dissipative protective clothing with a charge decay, half decay time, t 50 < 4 s
The manufacturer's information notices [MICROGARD® 2000 Ts Plus version 24.09.12 plus "Protective Suits Against Pesticides" version 01.12.11 or MICROGARD® Ts Plus version 24.09.12 (for Models 134 & 150)], in English, have been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file: M2000 Ts Plus, issue 8
