EC Directive 89/686/EEC

EC Type-examination

Issue 7.

EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) for a performance classification of TIL Class 1;
 EN 14605:2005 + A1: 2009 (Type 3 & Type 4, limited life, full body chemical protective clothing with liquid-tight & spray-tight connections);
 EN ISO 13982-1:2004 + A1:2010 (Type 5 Limited life, full body chemical protective clothing against solid particulates);
 EN 14126:2003 (Types 3-B, 4-B & 5-B: Limited life, full body protection clothing against infective agents);
 EN 1149-5:2008 (Protective clothing - Electrostatic properties - Material performance & design requirements) for electrostatic dissipative protective clothing with a charge decay, half decay time, $t_{50} < 4$ s.

The manufacturer's information notices (MICROCHEM® 5000 Coverall model 103, 111, 121-G02, 122, 125-G02, 151, 151-G02, 182 & 182-G02 version 12.09.13 and MICROCHEM® 5000 Bag version 08.03.12, plus the following additional documents where relevant: Donning & Doffing instructions for models: 151, 151-G02, 182, 182-G02 version 12.09.13; Ansell 003/2004 for models 121-G02, 125-G02, 151-G02 & 182-G02), in English, have been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

There are multiple certificates issued for this scope. The main certificate is numbered GB11/82302.00 and must be used for any legal interpretation.

Certification is based on technical file: M5000 issue 3.
