Product Details

Product name:	**Combination Filter.**
Models:	**3M 6057 (standard industrial product).**
Product type:	**Gas filter(s) and combined filters(s).**
Technical Specification:	**Harmonized European Standard EN 14387:2004 + A1:2008.**
EN 14387 classifications:	**ABE1.** **(Model is designed for use in a twin filter configuration).**

The product assessments were based on BS EN 14387:2004 + A1:2008, the English language version of EN 14387:2004 + A1:2008, respiratory protective devices – gas filter(s) and combined filter(s).

The Multi-type Gas Filter (Combination Filter) is designed to protect against specific gas and vapour classifications. When used in conjunction with a 3M specified pair of the same type of 3M Particulate Filter and their associated retainers, the Combined Filter protect against gases, vapours and particulates. The Filter and Combined Filter are designed for use with the 3M 6000/7000/7500 series of Half Masks and the 3M 6000/7000 series of Full Face Masks. The Particulate Filters and the Masks have been independently CE Certified.

Packaged variants

In addition to the product referenced on this Certificate, the standard industrial product may also be sold as market specific packaged variants. Such variants will be identified by an alpha suffix added to the model reference and the Technical File will be updated with the appropriate information.

Kits and packouts

The product referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the product but the user information may vary. In such instances the Technical File will be updated with the appropriate information.
