

M-Safe Rope Grab fall arrest device with fall arrestor

- Permanently attached to the core-wrap lanyard and supplied with a fall arrestor and a 12 mm diameter polyester core-wrap line
- Steel carabiner snap hook (18 mm opening) for attachment to a harness
- Wear resistant eye to protect the loops against damage at the top and a stop knot at the bottom.
- The attachment is secured by means of a transparent cover sleeve that protects the end, making the braids visible for inspection
- Provided with NFC chip under the label, intended for identifying users and keeping track of the inspection periods
- Maximum resistance: 15 kN
- This fall arrest device complies with the following standards: EN 353-2

Art.No. 8.84.111.00 Model 4111, length 10 m
