

Creator: Steve Gan / Avengers: Endgame picks up after the events of Avengers: Infinity War, which saw the Avengers divided and defeated. Thanos won the day and used the Infinity Stones to snap away half of all life in the universe. Only the original Avengers - Iron Man, Captain America, Thor, Hulk, Black Widow, and Hawkeye remain, along with some key allies like War Machine, Ant-Man, Rocket Raccoon, Nebula, and Captain Marvel. Each of the survivors deals with the fallout from Thanos' decimation in different ways, but when an opportunity presents itself to potentially save those who vanished, they all come together and set out to

defeat Thanos, once and for all /

/ Tomatometer: 9 of 10 stars / Joe Russo

/ Star: Mark Ruffalo
