In late 1985 they still made a pretty good Sci-Fi movie with some comedy, This movie was one of the best at its time and due to with other parts of the movies were also made, Converting a Car into a time Machine was pretty good idea and the Model of the Car was also best due to its time. Iove to watch again. I first saw this movie when I was just a little kid and I absolutely loved it. In the time that's passed since that day, I've seen it again and again (probably about fifty times) and I love it more and more with each viewing. I think that alone is a testament to its power; I've never been bored by it once and I don't think I ever will be.

Top to bottom, everything in this movie works. From the acting to the directing to the story to the music to the visual effects, it's quite simply the most enjoyable movie experience I can imagine. Really, I think this is what movies should be all about- watching some moving pictures and having fun. That's the best word to describe "Back to the Future." Fun.

So if you've never seen this movie before, don't take my word for it (I'm not qualified enough for you to do that.

Just go out and rent it and watch it and enjoy it and watch it again. You owe it to yourself.

I know I'll see it again in the future. You mean the past? Whatever.
