Back to the future is to me what 'Star Wars' is for other people. I watched it when I was rather Young and it became my absolute reference. It is hard for me to remain objective but I have Heard other critics confirm that they could not find any fault in this film (apart from maybe some tiny details that only fans can notice. And so can't I.

I loved the chemistry between Doc Brown and Marty McFly, I loved the all too familiar soundtrack and the ridiculous way in which George McFly laughs. This movie has become such a nostalgic and feel-good film for me. I had the good fortunate to see all three 'Back to the Future' movies in cinema last year and it was such an experience to watch this timeless classic with people who enjoy this film as much as I do. Everyone has to see this film at least once in their life! Such an amazing, funny Sci-Fi from the 1980's. I just can't get enough of this movie - it will just never get old. Cannot recommend it enough.
