What the hell have they done to my beloved Fantastic Four? When I first heard that they were re-booting the franchise, I felt back then that this was somehow going to have moderately improved special effects and a definitely diminished storyline. Sadly I was not proved wrong. This movie is not only garbage and a total waste of effort, it's a huge slap in the face of everything the

Fantastic Four ever were or stood for. I surprised myself that I didn't just get up and storm out of the theatre. Fans of the superhero movies will see this as just another movie, fans of the Fantastic Four comics and cartoons, will most likely side with me and this review and hate this, seeing it as a homogenised and castrated version of what the superhero quartet should be. And despite the cheesy 2005 movie, it was still a far more enjoyable outing than this disjointed and offensive effort.

Based on what I read, director Josh Trank was determined to not make a movie that was in any way respectful of the old comics or cartoons and as such that "Michael Bay-esque" decision will most likely come back to haunt him forever. And I hope it does. No good ever comes from meddling with what audiences and/or fans really wish or expect to see and there are numerous reports of Trank's erratic behaviour on set. Having said that, I have also read that Trank wanted a different version than what we ended up seeing, and the result was yet more unnecessary studio interference that just can't leave well enough alone. Regardless of which version is the more accurate one, this flick is only fit for burning.

The original Fantastic Four gained their powers through cosmic rays during a scientific mission to space; in this new version they got their powers after some kind of drunken cowboy stunt to an alternate dimension, that they weren't even supposed to go on. Sue Storm, AKA Invisible Woman, didn't even go with them, she just happened to get some of the fallout from the alien world when the guys returned from their impromptu journey to God-knows- where.

I don't know why they had to make Johnny Storm, AKA the Human Torch African-American. He never was in any version of the Fantastic Four that I've ever seen. He and Sue are supposed to be brother and sister, so why the half-arsed political correctness trying to keep over-sensitive people happy? Is having an all-white superhero cast too much for audiences these days? And having Sue as an adopted sister may explain the mis-match but it doesn't explain the obscure necessity to change the dynamic.

The Victor von Doom character turns out to be nothing more than a self- destructive emo-styled eco-warrior that turns into Doctor Doom while being stranded and understandably left for dead on this alternate world they ventured to. He displayed no real sense of the perfectionism that the Victor character had always prided himself on and his transformation resulted from a kind of fusion of his spacesuit and his own body after he was enveloped by a weird

green alien liquid.

Overall this movie was just a mediocre attempt at trying to cash in on the overwhelming superhero franchises that are doing the rounds, knowing that audiences will flock to the theatre in droves just to see the latest Marvel installment. The movie takes quite a while to get going and just when it starts to pick up, it's suddenly over. It dwells too much on drawn out pre-history of when Reed Richards and Ben Grimm were kids and then seniors in high school. It then draws out even further in building the device that ends up sending them to an alternate world. All the action takes place in the last 30 minutes. At only 100 minutes long, it's certainly not long enough to get audiences bogged down in useless back story. I'll never understand the insatiable need that directors and studios seem to have in wanting to steer away from what the story is supposed to be about. Fantastic Four is anything but fantastic and I still prefer the 2005 version than this slow-paced and derivative version. And don't bother hanging around at the end of the film as there is no additional footage after the credits have rolled, as has been the case in nearly every other Marvel movie) so you'll just be wasting your time; actually you're wasting your time sitting through this at all.
