

THE ROAD MAP
TO BECOMING A

Home Stager

HOMESTAGINGRESOURCE.COM

WELCOME!

I

DOES ONE OF THESE DESCRIPTIONS FIT YOU...

- You've been helping friends and family design their homes for years and now you're wondering how to become a professional stager doing it for a living.
- You've just sold your home (staging it yourself) and your agent wants you to help her stage her other listings (yep, you've got the talent baby!)
- You've been rearranging spaces since you were a kid and can't help but be drawn to design and space...so much so, that your friends ALWAYS compliment your home style.
- You live and breath design and have just gone through a BIG life change (empty-nester, retirement, graduation, divorce, etc..) and finally want to do something for yourself.

You are absolutely NOT alone and many people (including myself) have been in your shoes and have taken "the leap" into becoming a professional stager.

It's scary. It's exciting. It's surreal to think that someone would pay you to do what you absolutely LOVE and help them in their home...secretly that's why you've been getting your "fix" doing it free for friends all these years:-)!

Here is a complimentary, quick road map to get your started in the right direction. I can't wait to see where it takes you...

XOXO

- Andra

THE ROADMAP

I

STEP ONE - GET PERSONAL

Take inventory of your skills, motivation and mission. Where do you see yourself? What is your mission or story? Create your goals and map out the action steps to achieve them ie what training, actions or knowledge do you need to reach that specific goal?

STEP TWO - GET PLANNING

Research stagers in your local area and take note of their name, brand, services and what you like/don't like about their website.

Next, research homes in your area using [Realtor.com](https://www.realtor.com) or Zillow and ask yourself how you would have improved on the staging. Pick a name for your business that is unique and fits your personal mission.

STEP THREE - GET PRACTICAL

Reserve the domain of your chosen business name at Godaddy, reserve the Facebook & Instagram pages of your name. Decide on a business structure, talk to your accountant (you won't believe the crazy write-offs you will get) and invest in your success by getting [certified as a home stager AND redesigner](#).

STEP FOUR - GET PREPARED

Based on your research decide on your services and pricing, consultation process and deliverables, create your sales sheets, business cards and brochures using [Canva](https://www.canva.com) (it's free and awesome), create your gorgeous website using TrulyBranded for stagers, Wix or Weebly. Image matters in this industry, so you have to look great!

STEP FIVE - GET PROMOTION

List your new website on Houzz.com, Google Business, Yelp and on [your training companies directory](#) for maximum exposure. Next run a Google pay per click ad to capture sellers looking for a stager in your area, as well as connect with your local Realtor Association to create valuable and lasting partnerships with agents.

HOME STAGING BUSINESS START-UP CHECKLIST

I

- Your "Why" and Mission
