The damage is done in beginning as movie starts with a lack luster plot and keeps dragging without getting in the main story-line. Though acting is fairly good. It is lack of interesting dialogs which makes people loose the grip. I was waiting for something to happen in the movie. Good editing and cutting out unnecessary incidents would have made the movie much different. Though it is compared to Inception, it totally lacks the fun punch and originality of Inception. Also, it keeps the viewers hanging and too many questions unanswered. The movie tries to do exciting by showing time travel and worm holes in last one third of the movie. However, it couldn't save it.

It was a visually awesome movie, at the same time as having no tempo whatsoever. It felt like time was standing still, yes pun intended, for the majority of it.

Had high hopes for this one, based on the cast and the director.

Sorry to say its one of the most boring and tedious movies I've ever had the displeasure of watching.

Nothing wrong with the visuals, effects and the performance by the cast.

The idea behind it felt plausible as well.

I can see that happening in the future.

However, the length of it becomes a major problem since absolutely nothing happens for a very, very long time.

I consider it a total waste of 3 hours.
