Watch jumanji: the next level movie online full hd free watch. This was a fun time. The cast and performances are both very good here. It's a fun popcorn movie - although, there are some "shocks" and somewhat violent deaths throughout which I found jarring and a strange tone choice. However, this is a great bunch of likable comedy actors/young actors being given the freedom to have fun in these roles. There are also some exciting set-pieces and creative vfx. It was a wise choice to bring back the entire cast too, with some new additions. I'd recommend this movie to anyone that wants to see a fun action-packed video game/blockbuster with likable and entertaining actors. But beware of the jump scares and "scary" animals if you're sensitive to that sort of thing.

The original was unbeatable and who would have thought that a sequel arriving in theaters 22 years after would come even slightly close to it but sure enough it did. It had the chemistry, had the jokes, the acting and a whole new concept. And what happened then? Two years later another sequel popped up and it has become exactly what I was so afraid it would turn up to be - another cashgrabber. The next level shows no potential, no signs of any originality; old characters haven't changed one bit and in trying to bring the tension and drama between them they forgot one simple truth - that the characters are supposed to be alive and easy to sympathize. Did I believe in Spencer's inner problems of self-identification? No chance. All the rest of the characters don't even have that. The new characters, played by two Dannys, DeVito and Glover, have like two minutes of screen time and then they continue their tenure in the videogame which is hardly a tenure to begin with, just some "sucked out of the pinky" issue that resolves itself as quickly as this movie came out. The jokes are still there but they're mostly connected with the new characters and their new avatars and I have to admit Kevin Hart and Dwayne Johnson are at their height here again which I can't say about the others. Overall the movie plays it safe and is therefore dull and, I repeat it once again, brings absolutely nothing new to the table.

Did we really need a Jumanji franchise.
