I love this film so much ! I have watched it so many times I have lost count ! In this film there is a great cast and just a great film overall! I have watched it with various family members and they all loved it ! I would definitely say that this is a must watch especially if you are a lover of films by Adam Sandler and Jennifer Anniston. I had the misfortune of sitting through this movie with an elderly patient and his wife. NO ONE laughed much in the entire theater.

The jokes were obviously written either by a 12 year old boy or someone with brain damage.

Why does Jennifer Aniston keep playing the SAME character over and over? Adam Sandler is supposed to be a plastic surgeon and Aniston his assistant. Their unprofessional behavior would have me running from this office. Jokes were stupid and crude. Sandler fakes being married to pick up women because he was hurt years ago at his wedding. Stupid premise to begin with and it just got worse and worse.

Nicole Kidman did nothing to liven up this dreary mess.

Avoid this like the plague unless you are into sadomasochism.
