5. **movie Info:** A powerful and thought-provoking true-story, "Just Mercy" follows young lawyer Bryan Stevenson (Jordan) and his history-making battle for justice. After graduating from Harvard, Bryan might have had his pick of lucrative jobs. Instead, he heads to Alabama to defend those wrongly condemned, with the support of local advocate Eva Ansley (Larson.) One of his first, and most incendiary, cases is that of Walter McMillian (Foxx,) who, in 1987, was sentenced to die for the notorious murder of an 18-year-old girl, despite a preponderance of evidence proving his innocence and the fact that the only testimony against him came from a criminal with a motive to lie. In the years that follow, Bryan becomes embroiled in a labyrinth of legal and political maneuverings and overt and unabashed racism as he fights for Walter, and others like him, with the odds-and the system-stacked against them

Everyone should enlighten themselves and watch this movie.

And I just want to point out that these 7 reviews (not counting mine) average a score of 8.29. I don't know how they got a 5.7.

كُلُّ أَصْيَاكَ كَمَا كُتِبَ عَلَى الَّذِينَ قَبْلَكُمْ لَعَلَّكُمْ تَتَّقَوْنَ

رَمَضَانُ الْأَمْرَاءِ

Had a really high expectations with this since Jordan and Fox were attach and this story is very Emotional to tell but this film is forcing the stuff so much u will forgot what it's actually trying to say.horrible writing needed a better writer.

Maybe a different director could have saved this movie. The story is interesting, the acting is good but the pace is so slow. By the time the courtroom scenes happen my husband was completely checked out. There is never any real dramatic music or quicker paced scenes... everything is pretty monotone, with bland scenery and really boring wardrobe. I would have liked someone to have a personality, a little

humor, interesting ything. It's unfortunate because the last 10 minutes are the highlight of the film but most probably won't make it to the end.

I went into this film with no expectations at all, didn't even

really know what the film was about, just saw the really exciting cast and I was in. Nothing would have prepared me for the totally shocking.

True Story. that was told in this film, it has stayed with me ever since I watched it.

I'm not sure I know enough words in the English dictionary to describe the total disbelief in the whole story and journey of Walter McMillian and Bryan Stevenson played by Jamie Foxx and Michael B Jordan respectively. Needless to say that I had never heard of the central case of this film involving Mr McMillian nor the incredible work of Mr Stevenson and his organisation. I think it definitely benefited my viewing experience because I really had no idea what was going to happen.

Wow what an emotional roller coaster in many respects. I have complete and utter disgust with the pathetic case that was brought against Walter McMillian in the first place. basically the police needed to desperately catch someone so they intimidated another death row inmate to testify against an innocent man, so he could get a reduced sentence. Then there is the small fact of not using the witness accounts of black people who would prove Mr McMillian's innocence. nor have any black people on the jury. br> Then there is the other side of the emotion. from disgust and almost anger, to just outright sadness. this film is deeply horrifying and sad due to the nature of the subject matter. the scene when Herbert Richardson gets executed, is a huge emotional punch to the gut. it must also be said that the end credits are also just as educationally horrifying. thankfully there are some silver linings!

All of this going through my head is obviously due to the film being good. oh yeah did I not mention that. why is the Imdb score so low. The directing is solid but nothing mind blowing. it didn't need to be. The acting in this film is what just adds that extra special touch to elevate the film from good to great, for me! Michael B Jordan, Jamie Foxx, Brie Larson all of whom are just great in the film. no more to say. br> Overall I am just shocked by the story, it took my breath away! Being from the UK where the death penalty has not been accepted for quite some time. it is completely dumfounding why its still used and accepted in the US. Yeah those statistics at the end is almost vomit inducing. 80% out of 100 its a very good film highly recommend. people need to hear this story, peoples eyes need to be opened.
