

# Middle East and Africa Quantum Computing Market Reports

Quantum computing market is expected to gain market growth in the forecast period of 2021 to 2028. Data Bridge Market Research analyses the quantum computing market to exhibit a CAGR of 25.20% for the forecast period of 2021-2028. The rising workload on datacenters and the increasing complexity in processor designs of classical binary computing systems are the major factors attributable to the growth of quantum computing market. Therefore, the market value, which will be USD 894.71 million by 2028 from USD 148.2 million in 2020

# Middle East and Africa Quantum Computing Market Scope and Market Size

- The quantum computing market is segmented on the basis of system, qubits, offering, deployment model, component, application, logic gates and verticals. The growth amongst the different segments helps you in attaining the knowledge related to the different growth factors expected to be prevalent throughout the market and formulate different strategies to help identify core application areas and the difference in your target market.
- On the basis of system, the quantum computing market has been segmented into single qubit quantum system, multiple qubit system.
- On the basis of qubits, the quantum computing market is segmented into trapped ion qubits, semiconductor qubits and super conducting.
- On the basis of offering, the market is segmented into systems, services.

# Hardware Encryption Market Regional Analysis/Insights

- The quantum computing market is analyzed and market size, volume information is provided by system, qubits, offering, deployment model, component, application, logic gates and verticals as referenced above.
- The countries covered in the quantum computing market report are South Africa, U.A.E, Israel, Egypt, Saudi Arabia and Rest of Middle East and Africa.
- The country section of the quantum computing market report also provides individual market impacting factors and changes in regulation in the market domestically that impacts the current and future trends of the market.

Middle East and Africa Quantum Computing Market is Expected to Account for USD 894.71 Million by 2028

Middle East and Africa Quantum Computing Market, By 2028

DATA BRIDGE MARKET RESEARCH

# Competitive Landscape and Collaborative Robot Market Share Analysis

The major players covered in the quantum computing market report are Honeywell International, Inc., Accenture, Fujitsu, Rigetti & Co, Inc., IQB Information Technologies, Inc., IonQ, Atom Computing, Inc., ID Quantique, QuintessenceLabs, Toshiba Research Europe Ltd., Microsoft, The Xanadu, Magiq Technologies, Inc., NEC Corporation, Anyon System. Inc., CAMBRIDGE QUANTUM COMPUTING LTD, QCWare, Intel Corporation among other. DBMR analysts understand competitive strengths and provide competitive analysis for each competitor separately.

# About Data Bridge Market Research

**An absolute way to forecast what future holds is to comprehend the trend today!**

DBMR publishes high quality and comprehensive market research studies to help clients acquire granular level clarity on current business trends and expected future developments. We are committed to our client's needs, offering custom solutions that best fit for strategy development and implementation to extract tangible results.

With a team of exceptional people including industry analysts, consultants and domain experts, leveraging their global experience, we efficiently deliver excellence in all the assignments we undertake.
