This movie is awesome. It takes back classic Scooby-Doo moments from the movies and tv shows. And the voices for the characters are phenomenal. I hope they make a sequel. I was looking forward to watching Scoob, but I never expected it to be anything too great or awards-worthy. I just wanted to have a good time, and I did with certain elements.

Unfortunately, for the most part, Scoob is painfully average. The story is mediocre, and so is the script. It didn't feel like a traditional Scooby Doo narrative, because they introduced many elements which would appeal to children. I can see that children probably would enjoy this film a lot more than adults, and I myself can't get enough of superhero films, but it felt out of place in a Scooby Doo story.

There are a number of adult jokes, which I appreciated because it gave me a chuckle every once in a while. Some of the regular jokes also worked for me. Apart from that, there isn't anything particularly good about the script, and the number of pop-culture references was far too much. This made the film feel like it was pandering to the younger generation, by throwing in recognisable brand names instead of focusing on creating a strong

narrative.

Thankfully, there are a couple of redeeming qualities. The animation was beautiful to look at, and the voice actors did a nice job. There has been much controversy around the casting of Will Forte as Shaggy, instead of Matthew Lillard. I don't mind, personally, because it's the studios film. Lillard isn't entitled to play this character, and I ended up liking Forte in the role.

The dynamic between the characters was nice, even though the main gang was split down the middle for the most part. Apart from the animation, my favourite part of Scoob was actually the relationship between Shaggy and Scooby, and how they have become dependant on each other. There was a lot of emotion on display in parts, and I really liked it.

I can't call Scoob a good film because of the mediocre plot and script, but there weren't any elements which I thought were downright bad and I actually enjoyed a couple of aspects. I was never bored, which is the main thing, and the target audience, children, will probably love it. All-in-all, this isn't a film I will be thinking about for years to come, but I didn't hate myself for watching it.
