

Abortion 3 (What are women thinking AFTER the abortion?)

- Abortion is described as being an “excruciating pain.”
 - Described as “menstrual cramps * 1000 “
 - the woman said the bleeding continued for months
- Abortions are often done by the woman and she feels alone. Isolated.
- Her decision caused a breakup off a relationship with our partner
- The woman's decision caused her to regret the decision and that turned into a drinking binge
- A woman described it as being in depression
- Her decision caused a breakup off a relationship with our partner
- What Answers come from God?
 - Physical problems (menstrual cramps x1000; bleeding for months)
 - God would remind anyone who goes outside his guidelines that there are consequences to bear.
 - If the woman had abstained from sexual intercourse,
 - she would have been following HIS plan
 - She would NOT have become pregnant.
 - She would not be suffering pain and long-term physical problems.
 - It can not be overstated.
 - The remaining thoughts from the women are the result of their choices to listen to the Devil, and his work at making us think we can make the right choices on our own.
 - God told us in Jeremiah 10:23 ESV I know, O LORD, that the way of man is not in himself, that it is not in man who walks to direct his steps.
 - So the feelings the women experience are part of God’s plan to cause these ladies to return to His way
 - And his way has plenty of forgiveness and hope.
 - Alone and Isolated.
 - Regret
 - Drinking
 - Depression
 - Broken Relationships.
 - If we will examine Jesus and find he really God’s Son, then hope for a better future is just around the corner.
 - We will find a Jesus that asks us to start all over again

- We will begin to change the direction of life and who we are around.
- Our continual examination of Jesus brings us to tell others about who Jesus is to you.
- And finally, we will obey this Jesus and be immersed in water to have all our mistakes (a.k.a. sins), including the destruction of a small someone, removed from God's memory.
- He then sends us on a new pathway that avoids these situations
 - A pathway that has plenty of grace and mercy along it.
