Simply amazing, The Dark Knight is one of the greatest superhero movies ever made. By the time it came out, for me it was the best ever, now up there with Avengers and The Winter Soldier as my top three superhero movies. It creates characters we come to care about, the best performance in the movie is unarguably by the late Heath Ledger, as the Joker. He really deserved that posthumous Oscar! But really all the major actors in this movie are on top of their game. Gary Oldman is another i have to give credit to, he's just perfect for the role. And of course Bale is outstanding as Batman!

The Dark Knight is both entertainment and art, the special effects are extraordinary, the plot is perfect, the score is fantastic!

10/10.
