see this. The good part was the CG was pretty great. An absolutely beautifully set movie. That's where all the money went. The acting and writing is that of a 90's Saturday morning made for t.v. movie. Understandably, when you turn 20 T.V. episodes into an hour and a half, it's gonna drop a lot and be rushed. A major folly for Shyamalan, worst directed movie I've ever seen. Inevitably this movie will end up on nickelodeon in 2 years, I'll wait for it to end up on USA networks in 5 before I decide to watch it in full. Don't waste more than a dollar to see this movie.

Airbenders return. Airbender minecraft. I am not going to beat around the bush here,

but this will be one of the worst movies you will ever see, and probably the worst big-budget movie ever made. The solution? Just don't see it, for f*ck's sake.

Remember when "Two Girls, One Cup" was a thing and everyone who saw it was saying "For the love of God, don't watch it" and everyone told this only had their curiosities heightened and immediately went away to watch it? Well, this film has the same sort of mentality about it, and I must confess that it was this mentality and nothing else that caused me to end up watching it in the first place. Christ, was I stupid to surrender unto my curiosity, despite all the warnings from other people I had beforehand. Never before have I face-palmed, audibly cursed or simply cried out in anguish (or should that be "Aanguish. so much to a movie.

Where to even start?

OK, let's begin with what the movie did well:

The CGI. I've got to hand it to the studio that worked on the movie's digital effects; in places they managed to capture some very realistic computerised shots.

Now we'll move on to what the movie didn't do well:

Literally every-f*cking-thing else. I sat through some of the most stilted, most boring, most shoddily delivered lines I've ever had thrust upon my undeserving brain. Every line of script throughout the entire movie fell into one of three categories: it served only as exposition, it didn't matter to the overall plot, or it didn't make any bloody sense. As a result, the viewer is subjected to dialogue unparalleled in it's amazing ability to frustrate. Yet, at the same time, you can't help but find a little humour in the overwhelming incompetence of the poor sods involved. I've never laughed ironically so much at a film before, but then again I don't really go out of my way to watch a great number of sh*tty movies. I really should check "The Room" out at some point. I hear that movie's a right laugh.

Seriously though, I feared this movie might actually have put me at risk of alopecia thanks to it frequently inducing a great urge in me to tear my own hair out. I can only apologise to the few people in my vicinity at the time of my viewing of this sh*t, as I would often scream in mental agony at the screen for p*ssing me off so much. It was around the sixty minute mark where I had to reach over to the pillow on my bed in order to vent a built-up rage within myself upon it to prevent any further damage to my clenched fist. Around two minutes later I had to desist from such an act due to a sudden bout of tennis elbow and RSI.

This film has almost completely put me off going to see other films containing prominent child actors as this one has some truly abysmal performances from the afore mentioned. Not naming any names of course. cough. Noah Ringer. cough. Nicola Peltz and Jackson Rathbone. ahem. Congratulations on the butchering of your own portrayals, you talentless little tykes. br> The movie comes to an end in a manner much like the one it had at the beginning: poorly acted, CGI heavy, stilted, heartless

and boring with some truly comically awful choreography to top it all up. As the "epic" finale drew nearer I found myself reaching for the pillow again. The aggression within me needed another quick venting, only this time I didn't just punch the pillow, I full on tore it to shreds, ripping apart the very fabric of its being (literally and metaphorically) until my bedroom was awash with white feathers, one of which became instantly lodged in my throat, and to this day I am honest to God thoroughly disappointed that I did not choke to death upon it, for the pain of having seen this movie would then no longer torment my soul.

I put a spoiler warning on this review. Not because this review (to my knowledge anyhow) actually contains any spoilers, but because this movie is a complete spoiler in itself. It spoiled my well-being to have been an unfortunate member of its audience. It spoiled the career of M. Night Shyamalan; a once respected and well-received director is now incapable of promoting anything that has his name associated with it. Granted, he was already on the decline with his recent works, particularly with the sh*t-storm that was "The Happening. But most of all, this movie completely spoiled the anime series "Avatar" on which it had been based on. I've not seen it myself, but I've heard very positive things about it and feel sorry for its fans who had the series blasphemed by a lazy, soulless cash- grab.

Just one more thing: what the f*ck was up with that f*cking flying lemur-bat thing? Why the f*ck was it in the movie? It had about two minutes of total screen-time and added sweet f*ck-all to the overall story. Was it for comic relief? I sincerely hope it was not for comic relief, because that little c*nt was about as funny as a rusted saw-blade urethral swab.

F*ck this movie. F*ck it until it bleeds internally. F*ck it to death...

Airbender last fight. Airbender. Airbender reaction. Airbender ending. Airbender chill.
Airbender tattoos. Airbender bob.
