Breaking free of the matrix. Free matrix original mix. Free the matrix movie. The matrix online free. When I came back to Earth in my perpetual visits I was expecting that someone will finally say some kind of close truth to the earthlings about their home that they are so proud of. And finally someone did. The two brothers made one of the best films that has ever been made on Earth. Mixture of Science Fiction, Action, Drama and Thriller, this film comes to the boiling point of facing some kind of different reality of technology that is ruling over everyone. The technology itself took over nature, nature of things and true human nature. Mankind in total, beside the film are part of GREAT EXPERIMENT MATRIX. That experiment predict to people how to behave, be and do things but all with complete freedom.

That freedom is took away from people in this film and that is what it makes it so good. The script is very good, the twists don't exist, actually, whole idea is in some way obvious but what is unique for this film is idea, pace, direction, special effects, sound and lightning.

The acting isn't actual highlight of the film but it is from Laurence Fishburne side. He was just great. Direction is mind blowing ! The brothers directors thought of every single thing in the film, making whole picture of every scene looking just perfectly. So, all you people, even after you have seen this Matrix, you should start asking yourselves what is the point of whole your life(besides that you already have asked yourselves dozens of times that question but without any answer. It is certainly not your work, TV, food or having the wildest sex you possibly can have. The point is up there, in the sky, you just have to see it for yourself...
