

F.B.I. trainee Clarice Starling (Jodie Foster) works hard to advance her career, while trying to hide or put behind her West Virginia roots, of which if some knew, would automatically classify her as being backward or white trash. After graduation, she aspires to work in the agency's Behavioral Science Unit under the leadership of Jack Crawford (Scott Glenn). While she is still a trainee, Crawford asks her to question Dr. Hannibal Lecter (Sir Anthony Hopkins), a psychiatrist imprisoned, thus far, for eight years in maximum security isolation for being a serial killer who cannibalized his victims. Clarice is able to figure out the assignment is to pick Lecter's brains to help them solve another serial murder case, that of someone coined by the media as "Buffalo Bill" (Ted Levine), who has so far killed five victims, all located in the eastern U.S., all young women, who are slightly overweight (especially around the hips), all who were drowned in natural bodies of water, and all who were stripped of large swaths of skin. She also figures that Crawford chose her, as a woman, to be able to trigger some emotional response from Lecter. After speaking to Lecter for the first time, she realizes that everything with him will be a psychological game, with her often having to read between the very cryptic lines he provides. She has to decide how much she will play along, as his request in return for talking to him is to expose herself emotionally to him. The case takes a more dire turn when a sixth victim is discovered, this one from who they are able to retrieve a key piece of evidence, if Lecter is being forthright as to its meaning. A potential seventh victim is high profile Catherine Martin (Brooke Smith), the daughter of Senator Ruth Martin (Diane Baker), which places greater scrutiny on the case as they search for a hopefully still alive Catherine. Who may factor into what happens is Dr. Frederick Chilton (Anthony Heald), the warden at the prison, an opportunist who sees the higher profile with Catherine, meaning a higher profile for himself if he can insert himself successfully into the proceedings

The silence of the lambs protagonist crossword. The silence of the lambs online. The silence of the lambs best. I don't think that this movie is as good as everybody says. Where are the silent lambs ? Jonathan Demme seems not to know what real silence is ! Sometimes reality turns out to be crueller than any fiction can be. Jodie Foster is a very good actress, but she is not tough enough. I'm sure that there are better actresses to play this part. To name them here wouldn't help, I guess. Anyway, the movie was very boring and I didn't get nightmares like a classmate of my son. The story would have been more appealing if some Russian agents had been involved. This would guarantee real SILENCE. Believe me, I have experienced real silence...

Amazing movie. Still watching in the 2019. If u never see this movie, u must. The silence of the lambs quotes. The silence of the lambs dr chilton. Silence of the Lambs is one of the best American films I have seen in ages. It settles comfortably into the genre of "psychological horror" along with such modern classics as Seven Game I suppose. It is true that the afformentioned genre has not been overly exploited, and in view of a collection of films described as having "a questionable degree of merit" that is probably a good thing.

Jodie Foster is excellent as a trainee FBI agent, but her performance is a little overshadowed by that of Sir Anthony Hopkins in the role of Dr Hannibal "the Cannibal" Lector. A lot has been said about Hopkins' portrayal of the cannibalistic serial killer, and as I'm limited for space all that I can say is that after seeing the movie, Lector seems a more believable character than Hopkins himself (that's a compliment by the way.

In short, an extremely effective movie, and one that has for many embodied the cinema of the '90s.
