

# Thinking Pandas

A dedicated Tech Team for your business

# Our Offerings

## PRODUCT DEVELOPMENT

END TO END DIGITAL PRODUCT DEVELOPMENT

Delivering custom IT business solutions through the widely-extensive JavaScript ecosystem.

## IT CONSULTANT

TECHNICAL DIRECTION AS A SERVICE

We offer invaluable guidance on how to build scalable and maintainable applications based on our wealth of experience.

# Our Offerings

## DEPLOYMENT AUTOMATION

### DEVOPS AS A SERVICE

Let your engineers focus on building the application while we automate your CI/CD pipelines. We do great with traditional VM deployments as well as managing modern Kubernetes clusters

## TECH TEAM STAFF AUGMENTATION

### A COMPLETE TECH TEAM AT YOUR DISPOSAL

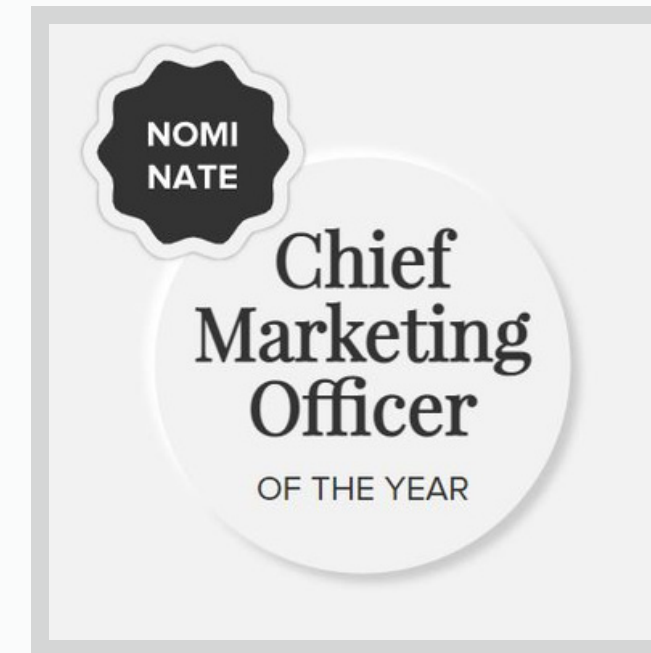

We are a strike team ready to take on any technical needs your business may have.

# Case Study: Tambuli Awards

The Asia Pacific Tambuli Awards is an award show that began in Manila in 2005 and opened to the Asia Pacific region in 2012.

Recognizing creative and effective brands with purpose Nationwide

**Creativity + Brand Purpose + Results**

# Case Study: Tambuli Awards

## THE CHALLENGE

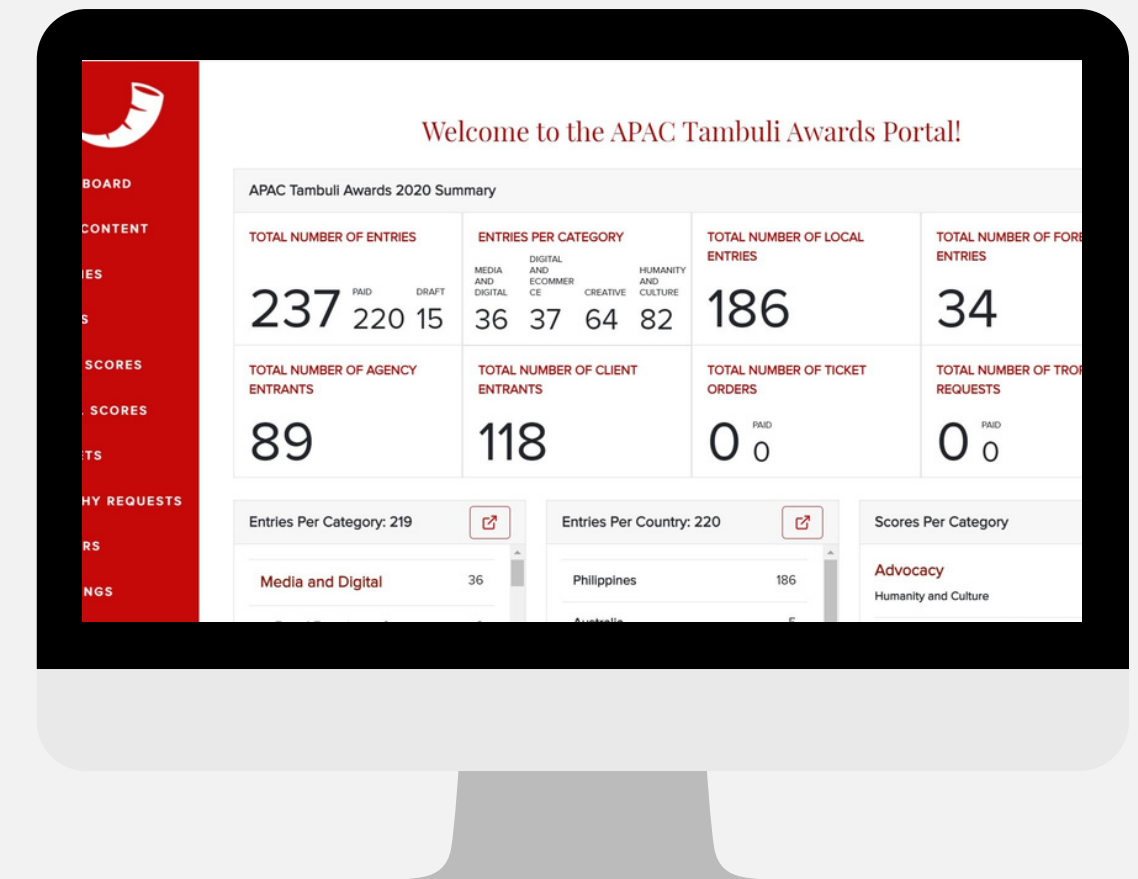

Tambuli Awards had no stable digital system in place to handle submissions and payment and commissioned different agencies every year to rebuild their website.

They were looking for a professional tech team to design, develop and maintain custom events management platform specific for their needs.

## THE SOLUTION

Thinking Pandalas designed and developed a **fully featured digital system** for Tambuli Awards event management.

Still being used  
3 years and  
counting...

# Case Study: Welex Construction, Inc.

For more than 2 decades, WELEX CONSTRUCTION INCORPORATED has demonstrated its ability to adapt, innovate and deliver the highest quality professional services to Filipinos, by taking on projects, which included road and infrastructure development, in the different regions of the Philippines, mainly in the Bicol region and in Palawan.

# Case Study: Welex Construction, Inc.

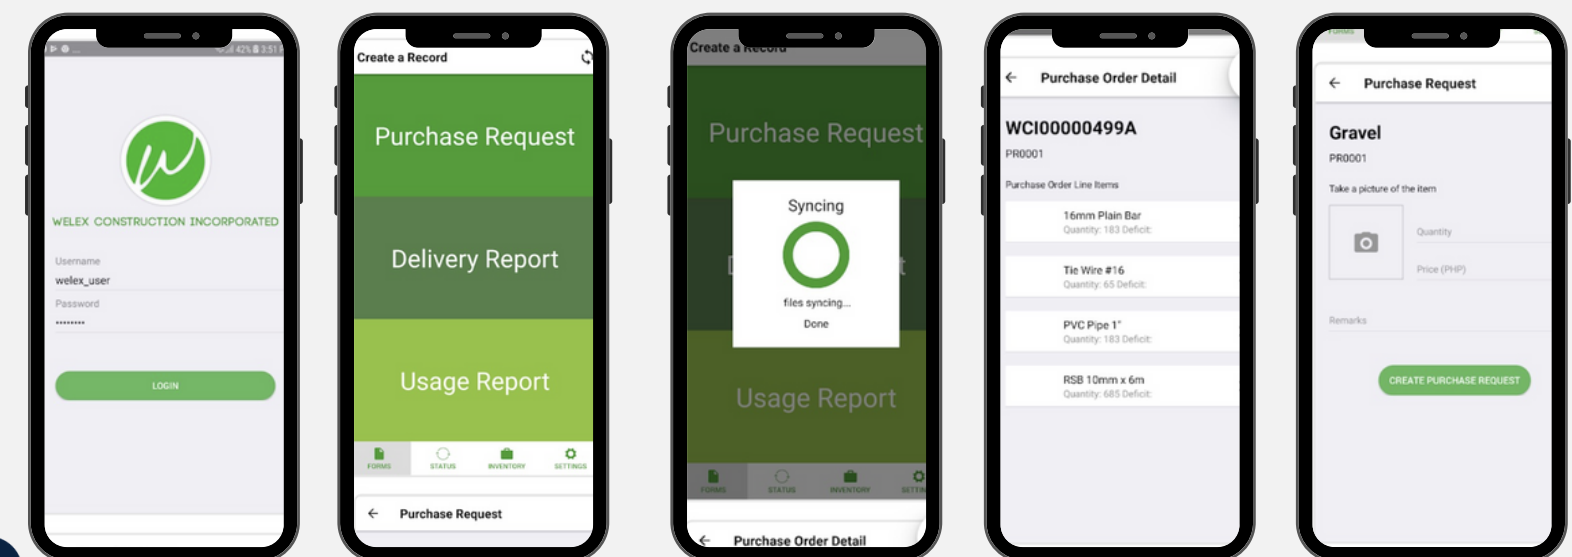

## THE CHALLENGE

Welex Construction, Inc. used to record administrative and operational documents using pen and paper. Inevitably, this caused human errors due to the unreadable and inconsistency of the penmanship which at times affected business continuity and caused monetary damages.

## THE SOLUTION

Thinking Pandas developed an internal android application exclusively used by Welex employees that **digitized the entire process of tracking, ordering, and delivering supplies.**
