

Chris Hemsworth, Mark Ruffalo

liked It - 556547 votes

Directed by - Taika Waititi

Odin (Sir Anthony Hopkins) has died and Thor (Chris Hemsworth) discovers that he has a sister, Hela, the Goddess of Death (Cate Blanchett). She is incredibly powerful and malevolent, and claims the throne to Asgard, killing anyone who opposes her. Thor and Loki (Tom Hiddleston) accidentally end up on Sakaar, a planet run by the The Grandmaster (Jeff Goldblum), part-tyrant, part-ringmaster. Thor is imprisoned on the planet and forced to fight to the death against The Grandmaster's champion... The Incredible Hulk (Mark Ruffalo)

Genre - Fantasy, Adventure

Jack Kirby

It really stands alone with it's unique ambiance and esthetics.

All the actors are delightful

The bit about Loki turning into a snake was the biggest laugh I got in a movie that I can remember.

It's really too bad it got overshadowed by other movies for the wrong reasons, because this work of art blows them out of the water like an Endgame Thor doing a cannon ball in a kiddie pool.

telugu. Thor Ragnarok is a comedy disguised as a superhero film, in the same way that the Guardians of the Galaxy films are superhero films disguised as sci-fi comedies. This worried me going into the film; would this movie be too light to stand alongside other entries in the MCU? Overall however, Ragnarok was brilliant, thanks in no small part to the visually stunning direction, engaging cast and irreverent humour. Taika Waititi has enormous fun directing, and steals scenes as the hilarious Korg, with his offbeat humour and comedic style being key elements of the film which consistently had me laughing throughout. Chris Hemsworth is on fine form, and the new and unique take on a Thor film allows Hemsworth to create a far more likable God of Thunder. Alongside Thor, Tom Hiddlestone turns out another stellar performance as Loki, Mark Ruffalo excellently handles both personas of the Hulk, and Tessa Thompson portrays new character Valkyrie, who is very impressive in the film. Jeff Goldblum's Grandmaster is a highlight of proceedings; let it not be said that nobody does a better Jeff Goldblum. If there is a weak link in the cast, then it's Cate Blanchett's Hela, who I personally didn't find compelling as an antagonist. In concerns to plot, Ragnarok isn't story heavy, however this allows a platform for more gags, which is what the film really nails, so thin plot isn't a major issue. I do however feel that Ragnarok could have done with more emotional scenes; because of the relentless humour and action sequences, Ragnarok lacks the same heart as Guardians of the Galaxy vol. 2 for example. The spectacle in this film is immense, and the special effects solid; these components combined with Waititi's unique deadpan quirkiness add to what is a genuinely entertaining spectacle well worth a cinema visit to see.
