# REVISITING TISINGAL FROM PASO ANCHO

Strolling Saturday

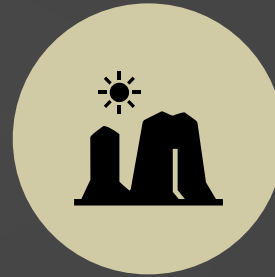

*Enhanced Digital Memory (EDM)*

# THE MISSION & THE STORY

---

It took us 3 months & 2 unsuccessful attempts to complete the Paso Ancho loop and eventually find a path into Tisingal with 4 explorers in March 2021

The route goes over the new Paso Ancho people bridge, through Florentina Finca & down a dry stream gully towards Tisingal

We decided to repeat this fun hike with a new group of Explorers now that we were more familiar with Tisingal

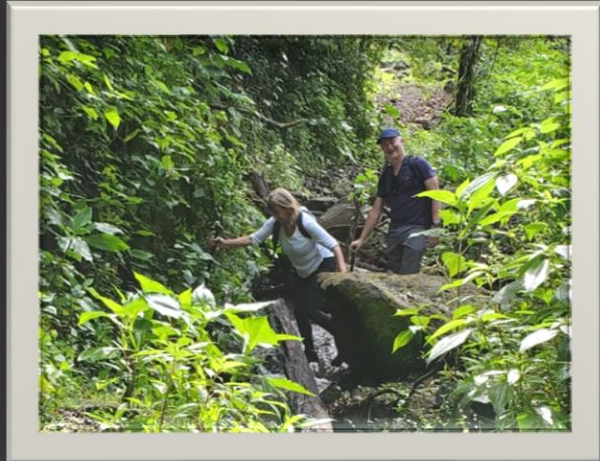

We also explored a new waterfall in Tisingal that I had been told about and a shortcut back to the Paso Ancho loop.
