WHEN I WAS 8 YEARS OLD I USED 2 WATCH THE PARAMOUNT 75th ANNIVERSARY OF "TOP GUN" WITH TOM CRUISE & KELLY McGILLIS.

BECAUSE I LOVE MY FAVORITE TOM CRUISE VHS MOVIES OF ALL TIME.

I watched this movie 1st time in 1987 at that time i wasn't very much impressed then again in 1992 this time i was fairly quite impressed and in 1997 i watched it about 5 times and so much impressed and fascinated by airiel photography and visual effect i myself cant believed it. Every scene of real and drill kind of dogfight looks so much real and original that you must appreciate the genius of producer jerry bruckhiemer. I had a desire to be a fighter pilot and after watching this i would definitely like to jump into the cockpit of an F-14 or F-16. In this film i happened to see actor Tom cruise for the 1st time and also guys like Val kilmer and Anthony Edwards. This film also produced one of the most marvelous sound track. At the deck of USS Enterpirse this film delivers more than you could expect. This film is the inspiration why the actor tom cruise developed a passion for flying and own his own private jets and it also motivates others like to develop a passion to soar into the skies. This is the best movie about military aviation history ever.

This is such an overrated movie. Repetitive scenes of jets flying around aimlessly. A lot of them were simple training aircraft not the high performance airplanes they infer. A very silly plot line. It has a decent soundtrack. Other than that this is a boring film. I am astonished they're making a sequel. Do yourself a favor and don't waste two hours of your life and just get the soundtrack.
