In a March 2019 study that assessed "The Impact of movies of Streaming on Traditional DVD Movie Rentals" it was found that respondents did not buy DVD movies nearly as much, if ever, because streaming had taken over the market.

Problems that according to respondents need to be improved by streaming movies including fast forwarding or rewinding functions, and search functions. This article highlights that streaming quality movies as an industry will only increase in time, because advertising revenues continue to soar on an annual basis across industries, providing incentives for the production of quality content.

When I first saw the trailer of watchmen I thought what the hell is this; a blue guy, couple of superheros.

Then I read about the what the movie is about and it wasn't bad. I decided to see it.

The movie is action but beneath it there is political things, that makes the movie more realistic. The opening scene of the movie was probably the best one I've seen so far. The action is slow motion that makes the scene ten times better. Throughout the movie has an idea of how people are violent and even the superhero "the comedian" the most violent superhero out of the others feel really bad about what he has been doing and about the things he has done in the Vietnam war. In the movie it always talks about the cold war, how Americans want to make renewable energy and the idea of that there always can be a miracle. The visionaries throughout was great and I really liked how the movie tells about each characters past.

The movie goes on like that but the ending is too long there is too much talking. Even though we get the point story goes on with more and more talking. The ending is great but too long. Watchmen has the idea of anyone can be a superhero because they are normal people with normal powers, except for doctor octopus. This movie is really good and I recommend it to everyone that has time to see 2 30 hour film...
