

Single Use Cup Mask FFP3 + Valve
PSP 30-330

DESCRIPTION

Article PSP 30-330 dust mask FFP 3 NR D with valve is intended for single use. The mask is made of polypropylene, the soft inner layer ensures optimal comfort. For a good face fit, the mask is designed to fit the contours of the face and features a moulded nose piece. The valve increases the ease of breathing. The latex-free fastening elastic bands ensure even-moderate pressure distribution on the neck, face and head.

Article PSP 30-330 protects you from solid and liquid particles of harmful substances and is tested and certified according to European Regulation (EU) 2016/425 and EN149:2001+A1:2009, FFP3 NR D.
